

Rapid Set® Stucco Patch

Rapid Set® Stucco Patch is the optimal repair solution for jobs that require a fast set-up time and allow for same-day job completion. Because of its high-performance cement formulation, the material may be applied full-depth in a single application without shrinking or cracking. Stucco Patch contains 16-20 grit sand to match any texture, and may be coated within two hours. Used for the repair of cracks, holes and voids in stucco surfaces, Stucco Patch is weather-resistant and can be used for

exterior and interior stucco surfaces.

Stucco Patch is formulated with premium-grade hydraulic cement, high-performance water-soluble polymers and high quality aggregates. The advanced formula maintains paint, gloss and color. Offering a 90-minute complete stucco repair solution, the surface can be painted as soon as the product has cured. Stucco Patch is available in 2-pound and 10-pound boxes, as well as 25-pound and 50-pound bags. **CTS Cement**, ctssupply.com.

Enviro-Paintware™ Line Expanded By Dynamic

Dynamic Paint Products move into the green-product category has been successful with its popular Enviro-Paintware™ line of products, so the company has expanded this offering. In addition to the flagship Enviro-Roller® and Enviro-Brush®, Dynamic is now offering Trim Roller Refills and Mini Roller Refills made from a special yarn

made from 100-percent recycled plastic. In addition, reusable and recyclable Enviro caulking tools, an Enviro-Paint Trim Cup™ and an Enviro-Tray™ Lid are now available.

Plus, the Enviro-Paintware line also features special paint trays made from recycled plastic, giving new life to recycled soda and water bottles and continuing the mission toward offering environmentally friendly

products. Accessories such as a lightweight paint trim tray, a paint can drip tray, a paint pad and edger tray, as well as the five-gallon Enviro-Pail and full Enviro-Kits™ cover all the painting essentials.

The product line is reasonably priced, debunking the perception that green products have to be costly or that well-priced products are inferior in some way. **Dynamic Paint Products**, getpainting.com.

Echo Design By Kenneth James

The Echo Design Group and The Kenneth James brand of wallpaper from Brewster Home Fashions have teamed up to create an exciting wallpaper collection to add fashion, a fresh look and a personal sense of style to your customers' walls.

Some of the 15 fashion-forward designs include:

- **Flower Power.** This pop geometric pattern fea-

tures raised suede flowers accented with vibrant gel centers in five on-trend colorways, including grey-and-yellow, and aqua-and-brown.

- **Fun Floral.** This fresh, modern pattern offers a trendy yet simple and elegant floral in seven bright, complementary colorways.

- **Lattice.** A graphic, modern take on a classic trellis. Lattice adds a dash of texture to a room and is available in seven colors.

- **Modern Damask.** Ramping up traditional damask more than just a notch or two, Modern Damask offers an extra-large, wide, leafy design in seven hues — both bold and muted.

- **Chic Paisley.** This classic design goes contemporary with an exploded scale and six striking colorways such as black-and-white or blue-and-brown that add a vivid richness to any room.
